

## Triad Employee Spotlight: Josh Chapman, EIT

**"What attracted you to the civil engineering industry?"**

"While obtaining my Environmental Engineering minor, I took a course in wastewater treatment principles and design. That led to my interest in Civil Engineering."

**"Are you involved with any organizations?"**

"Throughout college I was involved in AICHE for chemical engineers."

**"What are some of your favorite hobbies?"**

"I have been involved in the Boy Scouts most of my life, and recently completed another summer as a camp counselor. In the future I hope to be available for some weekend volunteering with the Boy Scouts."

**"What else would you like to share about yourself?"**

"I have always been interested in blacksmithing. Now that I have the materials to do it at home, I am beginning to explore blacksmithing."
